### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kevin McKinley on November 26, 2007.

The application has been amended as follows:

On claim 29, the last three lines, which read: "the conical chamber, the support of the part to be coated, the part itself, and the anode are coaxial, the support of the part including a central substrate to receive said part and radial arms extending between one of the slices of the central support" were deleted due to fact that they were duplicated of the previous three lines within the same claim.

### ***Allowable Subject Matter***

2. Claims 15-41 are allowed.

3. The following is an examiner's statement of reasons for allowance: the claimed invention requires a reactor comprising a conical chamber open at two opposite ends, an anode placed in the chamber, a support for a part to be coated, means for circulating the electrolyte wherein the chamber includes stacked and removable slices and an armature for supporting and clamping the slices. The closest prior art comprises a conical reaction chamber open at two opposite ends, a support for the part to be coated,

an anode placed in the chamber and means for circulating the electrolyte but fails to teach a chamber with stacked and removable slices and an armature for supporting and clamping the slices. There was not found a teaching in the prior art suggesting modification of the conventional reactor chamber to obtain the reactor of the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Zulmariam Mendez whose telephone number is 571-272-9805. The examiner can normally be reached on Monday-Thursday, 8:30am-5:00pm, EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Alexa Neckel can be reached on 571-272-1446. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
